OTHER SIDE AND COFFEE TABLES

Amongst our range of coffee tables, the most versatile is the Simla Table which is available in most shapes or sizes, can have drawers, can have sides that are fretted solid timber or leather and a top of veneered timber or stone.

Other tables include the Globe Stand table which is derived from Lutyens's design for a globe for New Delhi and the Tripod table, also from New Delhi which is available in various sizes.

The Club and Orchards tables are our own simple derivations using Lutyens design details, as is the Homewood Table, (see its matching settle) which draws on more Arts & Crafts influences. The Circlebase occasional table is derived from our range of dining tables of that name and the octagonal coffee table is a lower version of the BP octagonal desk.

All of these tables are available in a variety of timbers and finishes and can generally be made to any specified size.
