## 'S' LANTERN

The 'S' Lantern chandeliers were designed in 1929 for the garden loggia of the Viceroy's house in New Delhi. The lantern is typical of Lutyens's love of geometry with the octagonal central cage supported by a circular base and top. Each 'S' motif is separately cast and assembled by hand to create this unique fitting. The lantern is also available in timber.

The design has been adapted to wall sconce versions. The metal work can be made in a variety of finishes.

S LANTERN (BRONZE)

S LANTERN

S LANTERN (SCONCE)

The S-Lantern can be custom made to various sizes and dimensions. Standard sizes are as follows:

	Width	Height	Weight
