

HEATHCOTE TABLE

THE HEATHCOTE TABLE IS MADE UP OF 2 SEMI-CIRCULAR D-ENDS THAT PUSH TOGETHER TO FORM A CIRCULAR DINING TABLE. THE TABLE IS EXTENDED BY MEANS OF RECTANGULAR, FREESTANDING TABLE INSERTS THAT ARE SLOTTED IN BETWEEN THE D-ENDS. THE RECTANGULAR INSERTS CAN BE USED AS SIDE TABLES WHEN A SMALLER TABLE IS REQUIRED OR FITTED TOGETHER TO FORM INDEPENDENT RECTANGULAR DINING TABLES. AS WELL AS OR INSTEAD OF FREESTANDING INSERTS, WE CAN ALSO SUPPLY LEAVES TO EXTEND THE TABLE
